## mobile diagnostic service

Richard Carpendale has joined our team as a mobile technician

Richard has over 20 years experience in PSV diagnostics (both mechanical & electrical) specialising in Neoplan, MAN, Mercedes & Iveco.

specialising in:

- ▶ **NEOPLAN**
- ▶ **SETRA**
- ▶ **Mercedes**
- ▶ **MAN**
- ▶ **IVECO**

## what we can do

- ▶ Mechanical & Electrical
- ▶ Air Conditioning Repair & Servicing
- ▶ ABS, ASR, EBS Diagnostic & Repair
- ▶ MAN, Mercedes & Iveco Engine Management
- ▶ Webasto Service & Repair
- ▶ ZF & Voith Diagnostic & Repair

Don't be fooled by dealerships that hide behind a name and may have very little psv experience!

- ▶ Full Nationwide Coverage
- ▶ Workshop Facilities Available
- ▶ We Only Use Original Diagnostic Software
- ▶ Clutch Replacement
- ▶ International Breakdown

We only quote you based on the work you require so you always know where you stand financially!

## don't just take our word for it...

Recently my coach broke down on the outskirts of Leeds. I telephoned Heavy Duty who arranged a replacement coach which arrived within 45 minutes and transported my passengers onwards. Richard Carpendale arrived shortly after and repaired my vehicle. From telephoning Heavy Duty to me continuing my journey took 2.5 hours, what excellent service, as a small operator it's great to know back up is there when ever you might need it!

T.A Bushell - Terry Bushell Travel

His vast knowledge of Neoplan coaches is probably unequalled by any other technician in the UK. He has always tried to help out with his knowledge and giving sound advice and more often than not a probable cause to the problem whenever he has been contacted. Next time you are faced with a 'Head Scratcher' situation Richard is your **MAN!!**

Kerry Pitter - Coliseum Coaches

His knowledge & experience was invaluable in remedying a major problem to the electrical circuitry of our Neoplan. The wiring fault that he identified was deep in the loom and involved a huge amount of pain staking tracing. He even stayed overnight to allow him extra time working on repairs, without doubt we would never of been able to solve the problem ourselves.

Richard & Tony Bamber - Anthony's Travel
